BLOWER DOOR TESTING WEBINARS

Missed the Blower Door Testing Workshops in your area?

Here is your second chance to learn about the July 1, 2017 code requirement.

This session is an overview of the Florida Energy Code requirements. We will cover - the Who, What and How of blower door tests. **Who** can perform the test, **What** is passing and **How** is it performed.

R402.4.1.2 Testing. The building or dwelling unit shall be tested and verified as having an air leakage rate of not exceeding 7 air changes per hour in Climate Zones 1 and 2, and 3 air changes per hour in Climate Zones 3 through 8. Testing shall be conducted with a blower door at a pressure of 0.2 inches w.g. (50 Pascals). Where required by the code official, Testing shall be conducted by either individuals as defined in Section 553.993(5) or (7), Florida Statutes or individuals licensed as set forth in Section 489.105(3)(f), (g), or (i) or an approved third party.

Live Instruction: Joe Medosch, RetroTec and Owner of Energy & Environmental Consulting, LLC "Building Science Simplified."
